# INSTRUCTIONS TO USE THE LESS INSTA FLOW EXTENSION

The developed extension is not on the Chrome Store so, to use it, you must do the following steps:
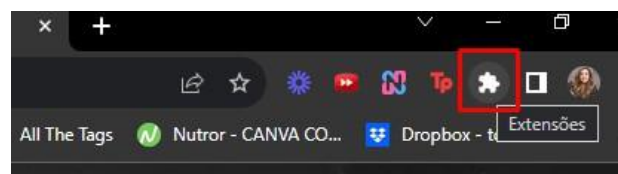

1. Download in your computer the file **less-insta-flow.zip** received by Whatsapp.
2. Unzip the folder.

3. When you access the unzipped folder, it should contain the files shown below (not another folder also called less-insta-flow).

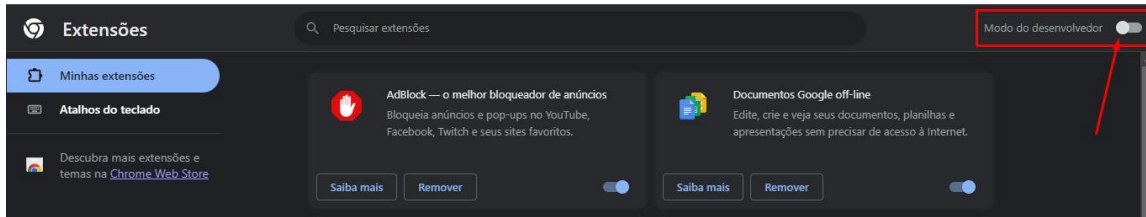

4. Open Google Chrome and click on the extensions icon (the top right puzzle icon).

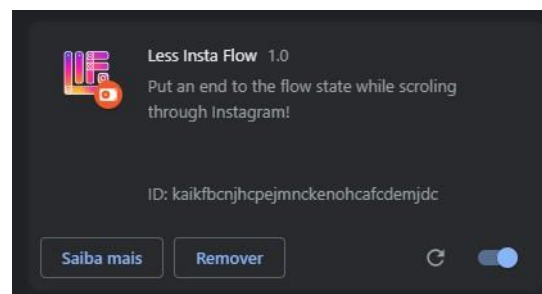

5. Click on "Manage extensions".
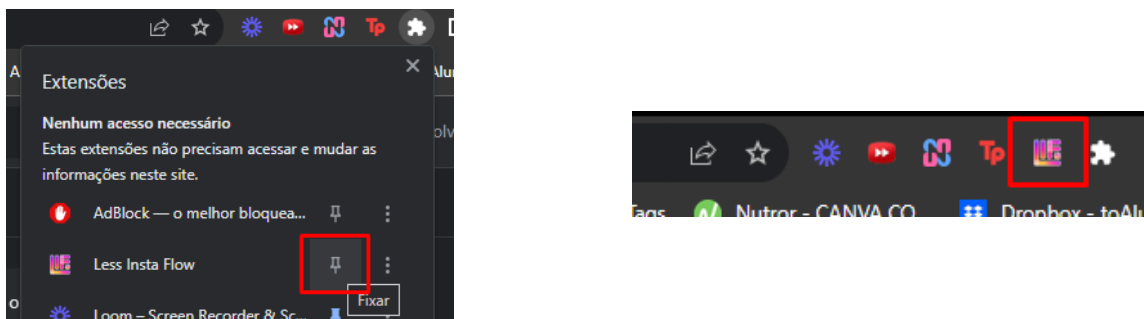

6. Activate developer mode.

7. Click on "Load unpacked".

8. Select the unzipped folder. The extension should appear on the list, as shown below.

9. Pin the extension in your browser by clicking the pin icon.

10. Open www.instagram.com and activate it.
